10. Javascript kodovi (ajax izmedju logike I prikaza).....	70
11. Php kodovi (pozadina(logika)).....	81

Uvod

Korišćeni programski i mark-up jezici: HTML, CSS(bootstrap), JavaScript(jQuery,Ajax), PHP, MySQL

Opis funkcionalnosti

Privilegije po ulogama:

Admin jedini ima pristup admin panelu

Samo ulogovan korisnik može popuniti anketu I obaviti naručivanje nakon dodavanja u korpu

Sve stranice:

Podaci za navigacioni meni se učitavaju iz baze podataka I dinamički ispisuju.

Podaci o headu(title,keywords,description...) se učitavaju dinamički iz baze podataka.

Admin.php:

Samo ulogovani administrator ima pristup ovom delu sajta. Sadrži update, delete I insert za svaki deo sajta za koji je to potrebno (navigacija,korisnici,uloge,proizvodi,brendovi,) kao I tabelu porudzbina.

Index.php:

Dinamičko ispisivanje po 3 proizvoda kojih je najviše ostalo u zalihama za muškarce i žene koji se mogu direktno odatle dodati u korpu I ajaksom ispisivanje obaveštenja da je proizvod dodat u korpu ili na dugme "read more" otići na stranicu koja sadrži informacije samo o tom proizvodu koja se dinamički pravi za svaki proizvod.

Man.php i Woman.php:

Dinamičko učitavanje proizvoda iz baze podataka na osnovu pola za koji su namenjeni, takodje imaju dugme za dodavanje u korpu radjeno preko ajaxa I "read more" kao na index stranici.

Paginacija po 3 proizvoda po stranici (tako malo proizvoda po stranici iz razloga sto ukupno imam po 8 proizvoda za muškarce I zene)

Productdetails.php:

Dobija informaciju za koji proizvod je pokrenuta I u odnosu na to dinamički ispisuje sadržaj. Za svaki proizvod je dodata barem po jedna dodatna slika tako da je baza morala da bude malo komplikovanija.

Contact.php:

Sadrži formu pomoću koje korisnik šalje pitanje administrator, koje administrator stiže na e-mail,

Administrator dobija email adresu posiljaoca kao I poruku.

Survey:

Sadrži anketu o tome koji je najbolji proizvođač, samo ulogovani korisnici mogu galsati, nakon galsanja rezultati se ajax-om odmah ispisuju u procentima, svaki korisnik može glasati samo jednom.

Login:

Stranica na kojoj se vrši registrovanje I login-ovanje korisnika, proveru unetih podataka se vrši I na klijentskoj I serverskoj strani kao I odbrana od sql-injectiona, ako se uloguje administrator automatski se salje na admin panel dok korisnik na index.php I umesto login u navigaciji se pojavljuje link za logout I u admin panelu I na ostatku sajta

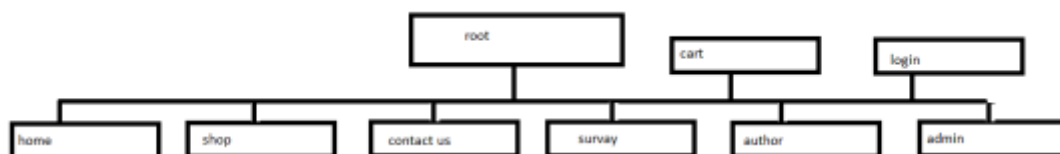

Logout.php:

Sadrži logiku za odjavljivanje korisnika.

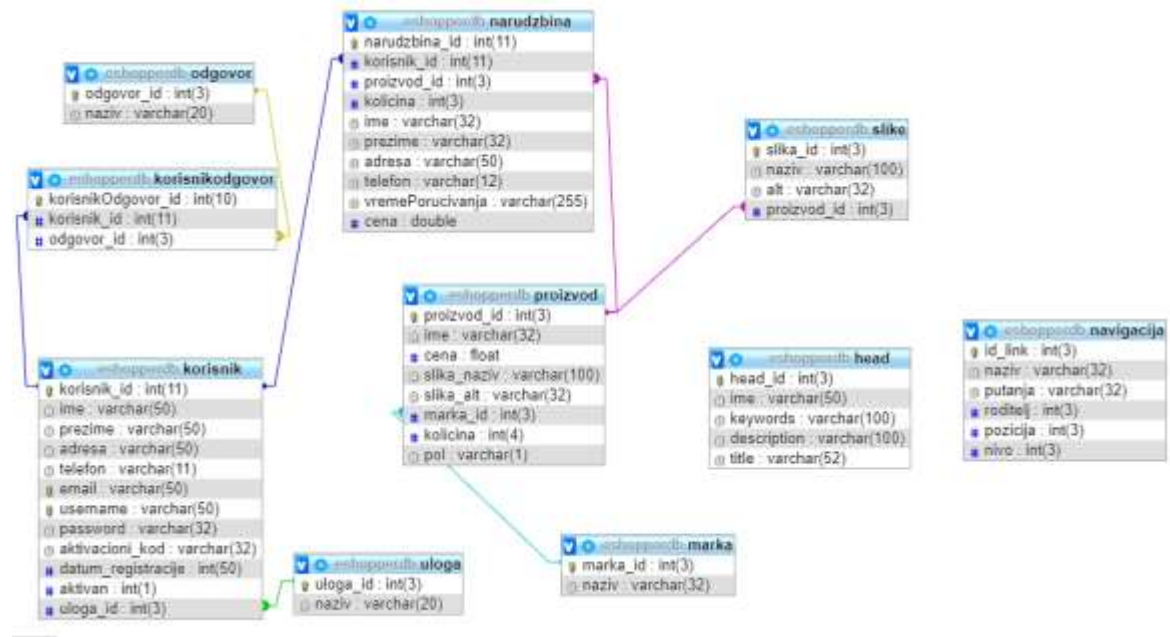

Cart.php:

Ovo je što se funkcionalnosti tiče najkompleksnija stranica. Putem ajaxa ova stranica dobija informacije za koje je proizvode kliknuto na dugme "add to cart" na bilo kojoj stranici na sajtu na kojoj se to dugme nalazi(index,man,woman,productdetails) na samoj stranici se odmah izračunava ukupna cena trenutne porudzbine, moguće je za svaki proizvod povećati količinu koja se naručuje ali samo do cifre koja se nalazi u bazi u polju za dostupnu količinu, takodje ne može se ići ispod nule, svaki proizvod se može obrisati klikom na "X" sve funkcionalnosti se rade putem ajaxa tako da nema refresovanja. Za svaki proizvod se posebno računa ukupna cena u odnosu na količinu a ukupna cena korpe se računa naravno za sve proizvode I njihove količine plus fiksna taksa. Samo ulogovani korisnici mogu da nastave kupovinu I da naprave porudzbenu.

Author.php

Hi my name is Stefan Stanković

I am a student of ICT College, University in Belgrade. At the moment, I'm attending the second year of the studies and so far chances for me graduating it in a time predicted for this program are pretty good. About my personal characteristics I would choose laziness as one of the main, but when it comes to work and when there's a great reason for it, I'm hardworking and someone who doesn't give up easily. A few hundreds of euros per month seems like a good reason to me (I accept dollars too). So if you have some extra cash and need a responsible and dedicated web developer, we could be a perfect match!

                <h2>Hi my name is Stefan Stanković</h2>
                <h4>I am a student of ICT College, University in
Belgrade. At the moment, I'm attending the second year of the studies and so
far chances for me graduating it in a time predicted for this program are
pretty good. About my personal characteristics I would choose laziness as one
of the main, but when it comes to work and when there's a great reason for it,
I'm hardworking and someone who doesn't give up easily. A few hundreds of
euros per month seems like a good reason to me (i accept dollars too). So if
you have some extra cash and need a responsible and dedicated web developer,
we could be a perfect match! </h4>
